Forward-thinking Software Engineer with background working productively in dynamic environments. Fluent in Javascript and Typescript programming languages used to develop bot backend and frontend components of a software. Proud team player focused on achieving project objectives with speed and accuracy while maintaining quality and business growth.

Typescript /Javascript.	
	Excellent
Proficient in react javascript.	Very Good
Proficient in writing unit tests.	Good
Proficient in Node js.	Very Good
Proficient in Mongo and Postgresql databases.	Very Good
Proficient in Apollo GraphQL.	Very Good
Software Documentation .	Very Good
Technical Analysis.	Very Good
Solutions deployment.  Rest.	Very Good
System Design.	Very Good
ayarerii Deaigii.	Very Good

### 2019-11 - Senior Front End Developer

2021-04 Catch Taxi, Nairobi, Kenya

- Created flawless registration system that allowed for registration of 70% of all Catch taxi drivers.
- Created payment system integrated with M-PESA to allow for 90% success rate in driver payments.
- Worked closely with other business analysts, development teams and infrastructure specialists to deliver high availability solutions for mission-critical applications.
- Created procedures for system monitoring, recovery, backup and optimization.
- Orchestrated efficient large-scale software deployments, including testing features and correcting code.
- Suggested improvements to team and project workflow.
- Adjusted design parameters to boost performance and incorporate new features.
- Reviewed Javascript code and worked with development teams to correct problems, run test scenarios and prepare for deployment.
- Trained and mentored junior developers and engineers, teaching skills in web development and working to improve overall team performance.
- Planned and developed interfaces that simplified overall management and offered ease of use.

## 2019-01 - Fullstack Developer

2019-11

Soofapay Limited, Nairobi, Kenya

- Configured system tracking to ensure over 90% system uptime.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Managed development milestones from initial steps through final delivery.
- Boosted network, system and data availability and integrity through preventive maintenance and upgrades.
- Orchestrated efficient large-scale software deployments, including testing features and correcting code.
- Reviewed code, debugged problems and corrected issues.
- Gathered and defined customer requirements to develop clear specifications for project plans.

## 2019-01 - Frontend developer

2019-11 Computer Castles Limited (Contract), Nairobi, Kenya

• System upgrade to achieve 30% growth rate from previous legacy system.

- Managed full-cycle design tasks, handling all phases from conception to completion while maintaining guidelines throughout.
- Integrated regulatory and compliance standards into product designs.
- Reviewed and tested customer-facing prototypes before deployment, applying best practice diagnostic techniques to verify usability.
- Developed user-oriented visuals and features using front-end languages, including HTML,
   React js, Typescript, and jest.
- Conducted unit testing to deliver optimal browser functionality.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

#### 2017-01 - Android Application Developer

2018-12 Jibutel Limited , Nairobi, Kenya

- Attained 100% service availability to general public checking authenticity of products in local market.
- Provided code maintenance and system upgrades to maximize performance.
- Experienced working between numerous devices and versions of Android.
- Designed user interfaces that engaged multiple senses and produced immersive experiences.
- Wrote clear, concise code in Java for android and php for backend.
- Managed all aspects of Android app lifecycle from research and planning through deployment and post-launch support.

2014-09 - Bachelor of Science: Computer Science

2019-08 Moi University - Eldoret, Kenya

• Graduated with second class upper division

2010-01 - High School Diploma

2013-12 KCSE, St. Mary's Viwandani Sec School - Nairobi

Testing Javascript, Kent C Dodds
